BRIEF ABSTRACT OF LETTER.

Forwards copy of notification declaring vaccination to be compulsory for a period of three years from and after the 1st of July 1910 in the local area within the Control of the Mysore city Municipal Council and requests that the notification may be published in the Gazette.

NOTES AND ORDERS.

7 The period of Compulsory vaccination in the Mysore City expired on the 30th June 1910 (vide Notification No. 12065 Sani 191-08 dated the 2nd June 1909) The measure seems to have been continued beyond that date without the sanction of Govt.

shall be compulsory in any local area from and after a date and during a period to be fixed in such notification. It is doubtful whether a notification declaring vaccination compulsory may be issued with effect from an anterior date, i.e. from 1st July 1910, as desired by the President.

Submitted for orders.

2. The Dy Comm proposes the issue of a Notification that Vaccination shall be Compulsory for a period of 3 years from and after the 1st day of July 1910. Retrospective effect may be inconsistent with Section 2 of Regulation I of 1906 in which it is stated that Vaccination shall be Compulsory in any local area from and after a date & during a period to be fixed in such Notificatio

3. It is probable that, if Govt do not see their way to approve of the President's proposal, the Health Officer may have to withdraw prosecutions instituted under Section 3 of the ~~Compulsory~~ Compulsory Vaccination Regulation.

4 A Notification with retrospective effect is inexpedient in several ways: First of all, it is a very extraordinary course, apparently against the Regulation itself. Secondly, the people that have a valid defence now against prosecutions will be deprived of their privilege without a hearing. ~~Thirdly~~. Lastly, in the interests of Governmental reputation it is not desirable.

5. A Notification making Vaccination compulsory in the area concerned up to the End of June 1913 is all that is proper at this stage. It takes effect as a matter of course only from its date.

6. The Explanation of the person or persons responsible for the gross delay in asking for a timely Notification should be called for & dealt with by the Government:

2nd Councillor) D. M. Narasinga Rao
31.1.13

7. The delay is disgraceful - Explan. will be called for as to who is responsible for this. A draft notn. as suggested in para 5 above will be submitted for approval. How much the prosecutions if any, that may have been instituted during this interval, & if any are pending still, they should be withdrawn pending the issue

2. 17 In October 1912, the Dy Commissioner, Kolar Dt. requested sanction to make the system of Compulsory Vaccination in the local areas under the control of the Municipal Boards of Chintamani, Siddaghatta, Chikballapur, Gowribidanur, Bagepally and Gudibanda permanent as the Municipal Boards concerned expressed their desire to have it so. A notification was issued declaring vaccination Compulsory for a further period of two years, from the 1st March 19 in the above Municipal areas. The President was informed that it is desirable to try the experiment for a further period before considering the question of making Compulsory vaccination permanent in the Municipal areas per para 16.

2) The Vaccination Regulation is enabling in character. It was thought of in connection with the peculiar interests involved in the mining area of the Kolar Gold Field with the principle of "a sparing & judicious temporary introduction of it to such large centres as Bangalore & Mysore & the Gold Fields whenever there is pressing need for it". This represents the gist of the policy regarding this legislation.

21 The principle of the local Regulation corresponds with that of the Madras Act but differs

NOTE—Contn. sheet.

from that of Bombay. To suspend the operation of an Act declared to be permanent is far more difficult than to refuse extension to a temporary one in case of need or expediency. The Bombay Act has therefore some rigidity as compared with the elasticity of the Mysore Regulation.

22 The extension of the period of its operation from time to time doubtless involves some amount of correspondence labour which however, seems to be justified by the care with which an act like the Vaccination Regulation has to be worked.

23 Bearing in mind the frequency of complaints about the vaccine lymph made to the Govt. in recent times we shall be justified in carefully watching the further operation of the Regulation in the areas concerned. The complaints may be broadly divided probably be unfounded; but there are yet no good reasons to hold that they are malicious or mala fide.

24 In these circumstances it appears to me more expedient to continue the provisional & temporary character of the Regulation for some years to come.
